Questions

- What does Jesus' healing reflect about the character of God?
- How does Jesus being fully human (and fully God) and therefore being under the power and dependence of the holy spirit change how we as people, also filled by the holy spirit, engage with healing?
- Why are the majority of the miracles Jesus does "reactive" and what can we learn from this?

- HONESTY - how can we be honest when sharing and talking about healing together?
- HUMILITY - what is it about saying "I don't know" that prevents humility when it comes to the topic of healing?
- HONOUR - who is someone that has walked with illness or struggle that we need to celebrate and encourage in our community?
- HUNGER - are there ways that you have been disappointed in the past that are hindering your faith and hope in the miraculous power of Jesus today?
- How can we stay trusting and depending on Holy Spirit rather than trying to create a formula for healing in our community?
